

**valor**™ THE ORIGINAL  
RADIANT GAS FIREPLACE

# Legend G3.5

Insert Series

G3.5 700X with Pebble Beach Driftwood (700XDWK), Fluted Black liner (707FBL), and Edgemont Brushed Nickel front (721EDN) with a 3-sided Black trim (717BPB).

G3.5 (700J) with Rocks (701RSK), Reflective Glass liner (706RGL), 3-sided Brushed Nickel front (709FTP) and a 3-sided Black backing plate (714BPB).

# Legend G3.5

With over two decades of design innovation and four generations of Legend gas insert DNA, now more than ever the Legend G3.5 exudes radiance, high efficiency and the ultimate in comfort control.

## DESIGN

Take advantage of the G3.5's **full view** appeal: personalize your fireplace with **twelve contemporary trims** and a full selection of fire beds.

## CONSTRUCTION

- ☐ Corrosion-resistant aluminized steel firebox and trims prevent rusting and wear.
- ☐ High-grade, powder coated paint maintains the appearance and ensures longlasting enjoyment.
- ☐ Aerodynamic firebox shape quietly and efficiently moves constant, steady heat into the room—without a fan.

## INSTALLATION

Fireplace surrounds include both three and four-sided designs, providing a more flexible installation into your existing hearth.

## PERFORMANCE

Valor continually upgrades the overall performance of the G3.5:

- ☐ 6.5% improvement in EnerGuide's efficiency rating, thanks to Valor's **AutoFire**.
- ☐ Maximum controllability with the **ValorStat Max remote**.
- ☐ **Natural convection** helps circulate warmth, removing the need for a fan.

## NEW

Exclusive to Valor, **AutoFire**:

1. Makes **initial startup** easier by automatically adjusting air flow within the fireplace,
2. Provides improved operating efficiencies—**saving you energy**.
3. Fine tunes your fireplace for **peak performance** in ways fixed restrictors cannot—an industry first,

# Surround Options

## Edgemont fronts

701RSK Rocks

<b>TRIM</b> Edgemont	717BPB	Black, 3-sided	fits Edgemont fronts (36¼"w x 26½"h)			
	719BPB	Black, 4-sided	fits Edgemont fronts (36¼"w x 29¼"h)			
<b>BACKING PLATE</b> Optional	710BPB	Black, 3-sided	fits 709 Floating fronts (37¾"w x 26⅞"h x ⅞"d)			
	714BPB	Black, 3-sided	fits 709 Floating fronts (42"w x 29"h x ⅞"d)			
<b>RISER</b> Optional	725RTB	Black	40"w x 2½"h			
	793RTB	Black	46¼"w x 2½"h			
	793RTV	Vintage Iron	46¼"w x 2½"h			
<b>FUEL</b> BTU/hr	Model	Fuel	Max. Input	Min. Input	Max. Output w/o fan*	EnerGuide*
	700JN/XN	NG	26,000	10,000	18,642	70.03%
	700JP/XP	LPG	24,000	13,000	17,825	70.40%

\*EnerGuide Ratings and Outputs have been determined without a fan/blower, using the CSA P4.1-15 test method.  
 Certified to ANSI Z21.88-2014/ CSA 2.33-2014 Vented Gas Fireplace Heater American National Standard. CGA – 2.17-91  
 Gas Fired Appliances for use at High Altitudes.

### G3.5 DIMENSIONS

Always refer to the manual for complete installation instructions.

### MANTEL CLEARANCES

Mantel Projection A	0-6"	8"	10"	12"
	0-152 mm	203 mm	254 mm	305 mm
Mantel Height B*	33"	35"	37"	39"
	838 mm	890 mm	940 mm	990 mm

\*Measured from underside of mantel to finished hearth or surface that unit sits on.

## MINIMUM CAVITY DIMENSIONS

depth (X)	13½" (343 mm)
depth (X) with fan	16½" (420 mm)
height (Y)	20½" (521 mm)
width, fireplace opening	28⅞" (734 mm)

Installation reminder: Check that masonry step does not interfere with install dimensions or vent pipe. A non-combustible hearth is required.

## VENTING

Vertical vent run:

- Max. 40 feet
- Min. 10 feet

Turn a highly inefficient, energy loss—your old wood fireplace—into an air-sealed, energy efficient and easy-to-use source of home comfort.

G3.5 (700J) includes Traditional Logs (702LSK), Fluted Black liner (707FBL) and 4-sided Floating front (713FFB).

# SmartFire by Valor

## RADIANT HEAT

Like heat from the sun, Valor fireplaces distribute radiant warmth directly to your living space. Radiant heat satisfies human comfort needs, using up to 25% less energy compared to traditional forced air systems. Valor warmth efficiently replaces the chill from cold windows and doors, providing steady, even heat to people and objects in the room.

## PACIFIC NORTHWEST DESIGN, DEVELOPMENT & DISTRIBUTION

Locally owned and operated in the Pacific Northwest, every Valor fireplace is designed, developed and manufactured exclusively for North America. With a proven product family history, Valor continues to introduce unique fireplaces that stand the test of time.

## EASY CONTROL

Standard with every fireplace, our ValorStat remote control adjusts the flame up or down to match the heat output of your needs, providing a constant comfort level as the room warms or as the outside temperature falls—a fireplace for all seasons.

## THE COMFORT ZONE

Reduce your furnace's output of hot air into empty rooms and unused spaces.

Zone heating requires no ducting or forced air, delivering radiant and convective warmth to the spaces you frequent the most. Where you want it—when you want it.

## BURN CLEAN, ENGINEERED GREEN

Natural gas is the cleanest fireplace fuel you can burn, with the lowest particulate levels and lowest levels of greenhouse gases.

Valor specializes in the design of clean heat solutions for your home.

## PRODUCT VERSATILITY

Known for our versatility in the field, Valor products are extremely diverse in their application and design. New construction or home renovation—gas inserts, zero clearance and freestanding fireplaces provide a wide range when selecting the ideal fireplace to suit your personal heating needs.

## SAVINGS

Your pilot flame will automatically turn off if your fireplace is inactive for over five days, saving energy and lowering overall home heating costs.

Keep forgetting to turn down your fireplace? Set the ValorStat to automatically turn down after six hours.

## NO POWER, NO PROBLEM.™

If the power fails in the winter your home can get cold fast. Valor fireplaces are fully functional heaters that don't need electricity. Our fireplaces provide the perfect mixture of radiant and convective heat, eliminating the need for a fan. No power, no problem.

## NO FAN NECESSARY

We firmly believe that you shouldn't put up with the constant buzz of a fan to be warm. That's why we designed glowing fires to radiate heat and heat exchangers to naturally circulate warm air by convection throughout the room. While a fan is an option, you'll likely find it unnecessary.

## RELIABILITY

With over 100 years in the heating industry, we take pride in providing high-quality, safe products. Engineered to provide peace of mind, every Valor product undergoes extensive safety testing before it reaches our customer. That's why many customers own more than one Valor fireplace in their lifetime.

## FIREPLACE SAFETY — USE RADIANT HEAT SAFELY

Fireplace surfaces, in particular the glass viewing window, are extremely hot during operation and will remain hot for a period of time after the fireplace is turned off. Contact with the hot glass can cause severe burns. Close adult supervision is required if there are young children, or at-risk individuals in the house. Included with your purchase, a Valor barrier screen is recommended at all times. Install an approved aftermarket safety gate to keep toddlers, young children and at-risk individuals a safe distance from the fireplace.
