

## Summit 65

The Summit 65 is our new extension of our popular Pinnacle 55 linear. With an extra 10" to play with the Summit 65 takes what everyone loves about the Pinnacle one step further. Doing so with an extraordinary flame that only bumps up the BTU's to a manageable 38,000 BTU's. Meaning you can turn the fireplace on and leave it on, amazing for a linear this size!

Plus, only 17-1/2" deep for framing. Again, amazing!

## Noble 36

This 36" For those that are looking for a little more punch from their fireplace without taking up huge amounts of space, the Noble 36 is pound for pound the best bet out there. It boasts 26,000 BTU's and is proof good things come in small packages as it's framing is only 36" wide and 15" deep. A very compact little unit for all that heat!
