

HEAT PUMPS

FO*16R

AVAILABLE SIZES:
1.5 to 5 tons

COOLING EFFICIENCY:
Up to 16 SEER / 13 EER

HEATING EFFICIENCY:
Up to 9 HSPF

Comfort for all seasons. A smart, durable design makes the FO*16R Series one of the best options for staying comfortable inside. Each unit includes features that work together to bring you quiet, efficient and dependable indoor comfort.

DURABLE CONSTRUCTION

The legendary two-stage **scroll compressor** technology make this heat pump as efficient as it is durable. The **optimized fan orifice** contributes to optimal airflow and better overall performance. Built-in defrost capabilities mean less time defrosting and more time warming your home.

QUIET AND EFFICIENT

Several features contribute to quiet operation and better overall performance. It starts with the **composite base pan** which, not only adds to quiet performance, it also helps eliminate corrosion. Enhanced mufflers and improved refrigerant tubing design are additional features that contribute to the overall performance. For added strength, the louvered panels on the exterior do an outstanding job protecting the inside. Optimized reversing valve sizing helps increase the life of your system.

CURB APPEAL

The FO*16R Heat Pump not only looks good, the powder coat paint system provides a lasting professional finish.

TWO-STAGE COMFORT

A single-stage unit runs at one speed, but the Two-Stage Copeland Scroll™ UltraTech™ compressor modulates between two speeds – high and medium. It will operate on medium speed most of the time, providing more precise temperatures and lower humidity while also reducing energy use.

RELIABLE AND LEGENDARY

① Two-Stage Copeland Scroll™ UltraTech™ compressor technology makes the FO*16R Series as efficient as it is durable.

The ② optimized fan orifice also contributes to quieter operation, optimal airflow and better overall performance. Simply put, you get efficient comfort that lasts a very long time. And built-in defrost capabilities mean less time defrosting and more time warming your home.

A QUIETER AND MORE DURABLE UNIT

Starts with our smart new ③ composite base pan. The design helps eliminate corrosion and adds to quieter performance. Extensive UV testing was done to ensure that the base pan stays black for years to come. Our enhanced mufflers and improved refrigerant tubing design also contribute to a quieter, more reliable operation. For added strength, the optimized reversing valve sizing helps increase the life of your system.

CURB APPEAL

Is not lost on our new FO*16R Series. Our heat pumps look as good as they operate. Modern cabinet aesthetics allow your unit to put its best face forward, and a powder coat paint system provides a lasting professional finish.

FAST AND ACCURATE INSTALLATION AND MAINTENANCE

Means your savings start with the installation of your new unit. Our FO*16R Series Heat Pumps are built to go in fast and easy. The control box is also easy to access, and a roomy diagnostic service window means maintenance calls go quickly, saving you time and money.

BENEFITS AT-A-GLANCE

COOLING EFFICIENCY:
Up to 16 SEER/13 EER

HEATING EFFICIENCY:
Up to 9 HSPF

SOUND LEVEL:
Features like our smart new composite base pan contribute to quieter operation

AVAILABLE SIZES:
1.5, 2, 2.5, 3, 3.5, 4 and 5 ton

COMPRESSOR:
Single-stage scroll compressor

WARRANTY*:
Parts - 10 Years

LIMITED WARRANTY INFORMATION:*

Parts - 10 Years (Registration Required)
